**3 men!  
3 motorcycles !  
3 months !  
23 000 km !**

MotoSyberia.com – 3 men, 3 motorcycles, 3 months, 23 000 km. A motorcycle journey through the Caucasus, Central Asia, Mongolia, to the far east end of Russia. Magadan has always symbolised the end of the world. The dream or even obsession to get there haunted my mind for a long time. Why Magadan? As usually the aim was not the most important, but everything that happened on the road. MotoSiberia is almost 100 days of extreme emotional balances: from frustration to total ecstasy, lots of mud, raw meet and fraternizing with extremely nice locals.

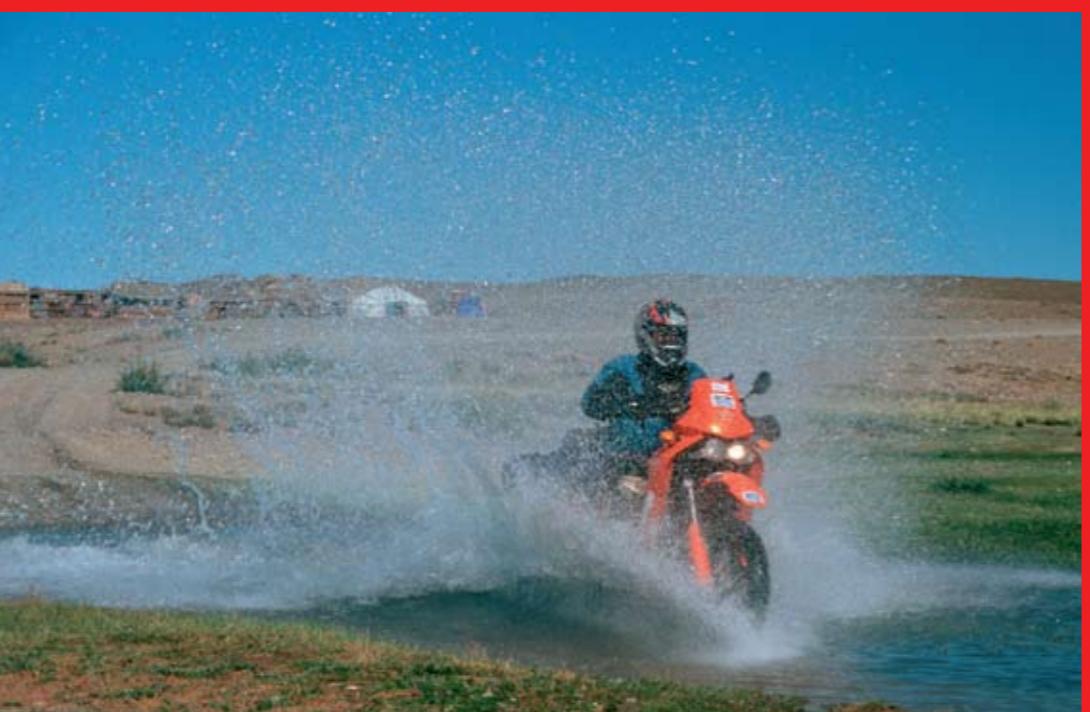

**The route:**  
Poland,  
Ukraine,  
Georgia,  
Armenia,  
Azerbaijan,  
Turkmenistan,  
Uzbekistan,  
Tajikistan,  
Kirgizstan,  
Kazakhstan,  
Russia,  
Mongolia,  
Russia,  
Irkutsk,  
Yakutsk,  
Magadan,  
Omsukchan.

Huge 6000m peaks in the Pamir

Crossing the infamous Road of Bones

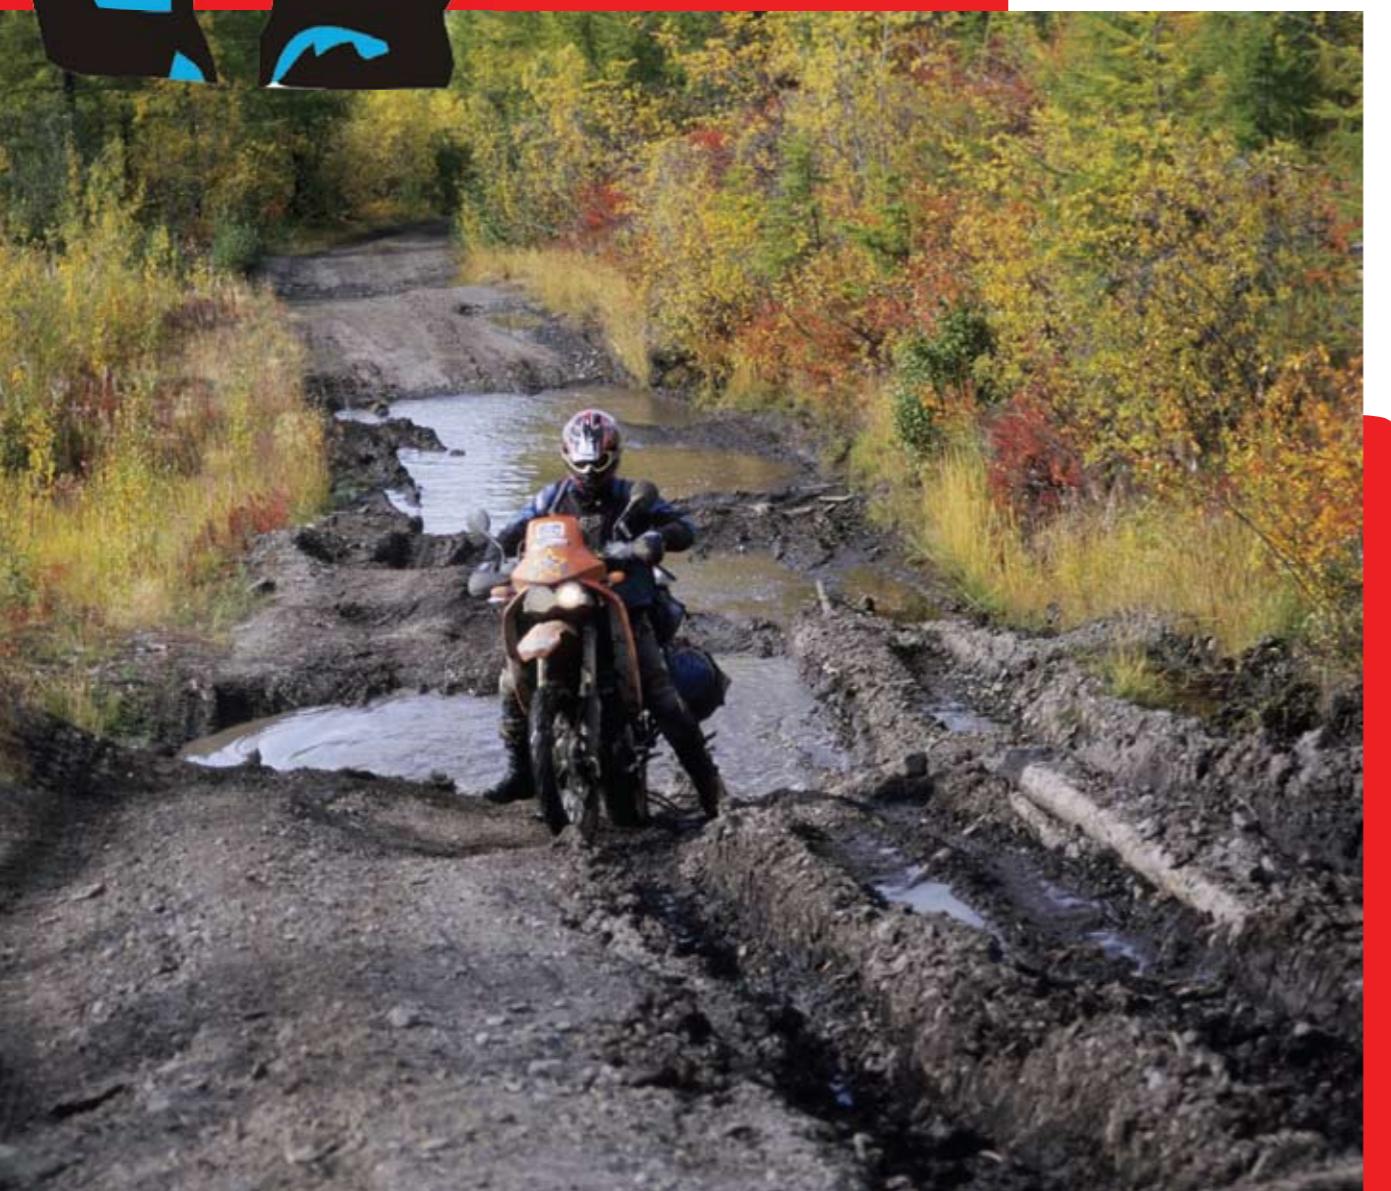

**Big Success! After 3 months and 23 000 km  
we have reached Magadan !**

# MotoSyberia.com 2009

On MotoSyberia 2007 we have reached Omsukchan.  
This is where the road ends...

MotoSyberia 2009 is about getting from Magadan to Anadyr - the capital of Chukotka. This is a completely unknown place. In summer this area turns into swamps cut by huge rivers.

There is only few villages on our path which are connected to the outside world only by air (airplanes or helicopters). From one village to another we will have 500km of difficult offroad. We will carry more than 30 liters of fuel each and dry food portions in order to be completely independent. We will carry small and light inflatable boats to cross rivers. We will be riding light enduro bikes with motocross tyres.

It will take us 60 days to cross the most difficult part: Omsukchan - Anadyr. We will have an average of 40 km / day.

## MotoSiberia 2009 Team:

Maciej Swinarski - film maker and bike adventurer with more than 10 years of experience; organiser of motorcycle expeditions: MotoSiberia 2007 (Poland-Magadan), MotoAfryka 2005 (Poland-Cape Town), MotoAfryka 2000 (Poland-Dakar), MotoMongolia 2002 (Poland-Mongolia), MotoGeorgia 2004 (Poland-Georgia), MotoKarpaty 2006 (Carpathian Mountains).

Miroslaw Kolerski - bike adventurer; participant of motorcycle expeditions: MotoSiberia 2007 (Poland-Magadan), MotoKarpaty (Carpathian Mountains). participant of 4x4 expedition to Dakar.

Pawel Filaber - bike adventurer; organiser of motorcycle expeditions: Poland-Mongolia (2007), Poland-Murmańsk (2004), Balkans (2005), Around The Black Sea (2006).

4th biker - heavily testing few guys....

# MotoSyberia.com Movie

During the MotoSiberia expedition 25 hours of footage was made. Based on this a documentary movie MotoSyberia was created. It is a 60 min full featured movie, and is out on DVD with English, German, Polish and Russian subtitles.

The movie is distributed by Aimimage - the producer of the well known Mondo Enduro and Terra Circa motorcycle movies.

## PEOPLE AROUND THE WORLD LOVE THIS MOVIE!

A masterpiece. You are the maestro!

Vince Austin from London

About your Syberia trip and the DVD I can say only one word: AMAZING!!!! - I really enjoyed it. Many thanks for it!

Bódi János from Hungary

When i saw this video i was amazed!! You guys can ride!!

Killurty from USA, Central Oregon

It was worth waiting. Stanley Kubrick and his "Space Odyssey" kneels down at the scene of the burning hole. A great movie!

Biker from Poland

Terrific movie!

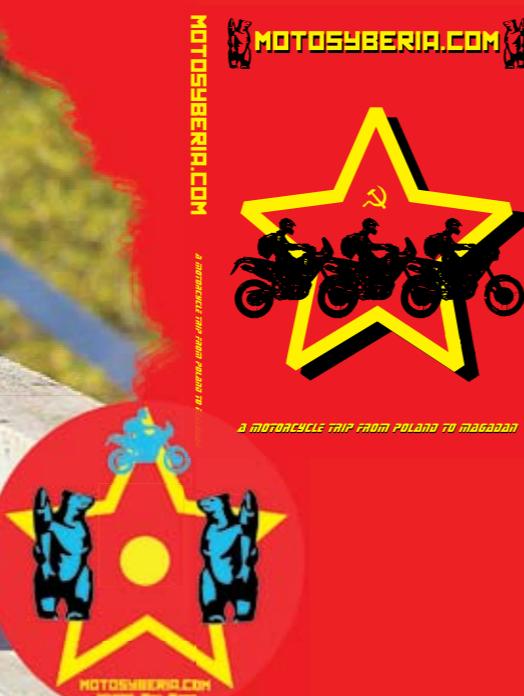

Susan and Grant Johnson from Horizons Unlimited

Fantastic movie - great success!

Mark from South Africa

### MotoSyberia movie prizes:

- "Best expedition" - jury award on the biggest expedition festival in Poland: KOLOSY 2007
- Screened in cinemas on: III International Tourfilm Festival, Wiatraki Festival, NaSzage Festival, ...

## MotoSyberia London Launch - Press Release

Motosyberia is one of the great adventures of the age.

It chronicles the story of Maciek Swinarski's journey from Poland to Magadan and beyond, almost all of it off-road. This truly excellent film is in itself a phenomenal achievement and a clarion call to all of us to hit the road and document our trips.

The MotoSyberia team is comprised of genuinely determined men. However, their film contains neither swaggering ego, nor endless complaining, merely the quiet humility and gentle smiles of riders who recognise that every day spent on such a trip is a tremendous privilege.

Maciek Swinarski is a legend in the adventure motorcycle community and a national hero in his native Poland but this film transcends all the niche genres of 'travel', 'adventure' or verité documentary. It is exciting, emotional, funny, inspirational and stunningly authentic. Swinarski has made it virtually impossible for the traditional 'film crew and presenter' to have any further valid role in modern travel television. It is often hard for the layman to understand how much effort it requires to make a TV programme 'on the hoof'; no set-ups, no advance party and no budget. However, Swinarski is no 'point and shoot' simpleton, simply hoovering up everything he sees; his film showcases an almost unheard of blend of trans-continental bravery and genuinely imaginative, ground-breaking film-making.

The hundreds of hours spent viewing rushes and precise editing is all Swinarski's own work and paid for at his own expense. The glorious brilliance of Motosyberia is that Swinarski was always going to do the trip and make the film anyway. This DVD is not the product of some whimsical and contrived lightweight TV commission, it's the real thing and you're gonna love it!

The DVD of MotoSyberia is officially launched in London on the 8th of October 2008. Maciek Swinarski and his team are riding their battered KTM's over from Poland especially for this night.

Be part of it.

## Trailbike & Enduro Magazine [October 2008] - biggest english enduro magazine!

Having revolutionised the building trade, will the Poles do the same for our film industry? Until you've seen three Polish motorcyclists performing gay dancing with a bunch of shisha-smoking Syrian blokes in what appears to be a prison cell, well... let's just say you're missing out! ...

... Trust the Poles to show how it's done. Maciek Swinarski and his various travelling companions are young, funny and adventurous, and seriously hardcore riders to boot...  
... His film-making in itslef is highly creative, entertaining and full of quirky and original touches that almost verge on the avant garde...

## Bikes & Stuff

**WE NEED A HARD CORE WEAPON FOR A HARD CORE JOB!**

- light enduro bikes, max 125kg dry
- possibility to put aftermarket big tank
- possibility to put racks to take even more fuel (we need 30L of fuel on each bike)
- sport suspensions, reliable engine
- all team on same bikes, it looks cool and no need to take so much spares and tools

Bikes we are thinking about: Yamaha WR 250 R, KTM 400 / 530 EXC, KTM Enduro 690R, Husqvarna TE610

**\$\$\$**

Transport of bikes and bikers to Magadan

**\$\$\$**

Backup helicopter - if we get really stuck or hurt the only option to get out will be a helicopter; we want to make sure everybody comes back to mummy alive, so we will leave a deposit in Magadan for a just-in-case-everything-goes-wrong

**\$\$\$**

Special equipment (dry food, radio, GPS, boat, satellite phone)

**\$\$\$**

Bikes preparation (tank, racks, engine guard, tyres, moose)

**\$\$\$**

Photo / video equipment

How about putting MotoSiberia team, with the bikes looking wilde with big tanks, racks, dirt on a motorcycle show + stand with DVD from the trip:

- Intermoto show in Germany
- Intermoto show in Wroclaw
- Motorcycle Expo Warsaw
- Motorcycle show Gdansk

This stand will look 100% more powerfull then standard factory bikes!

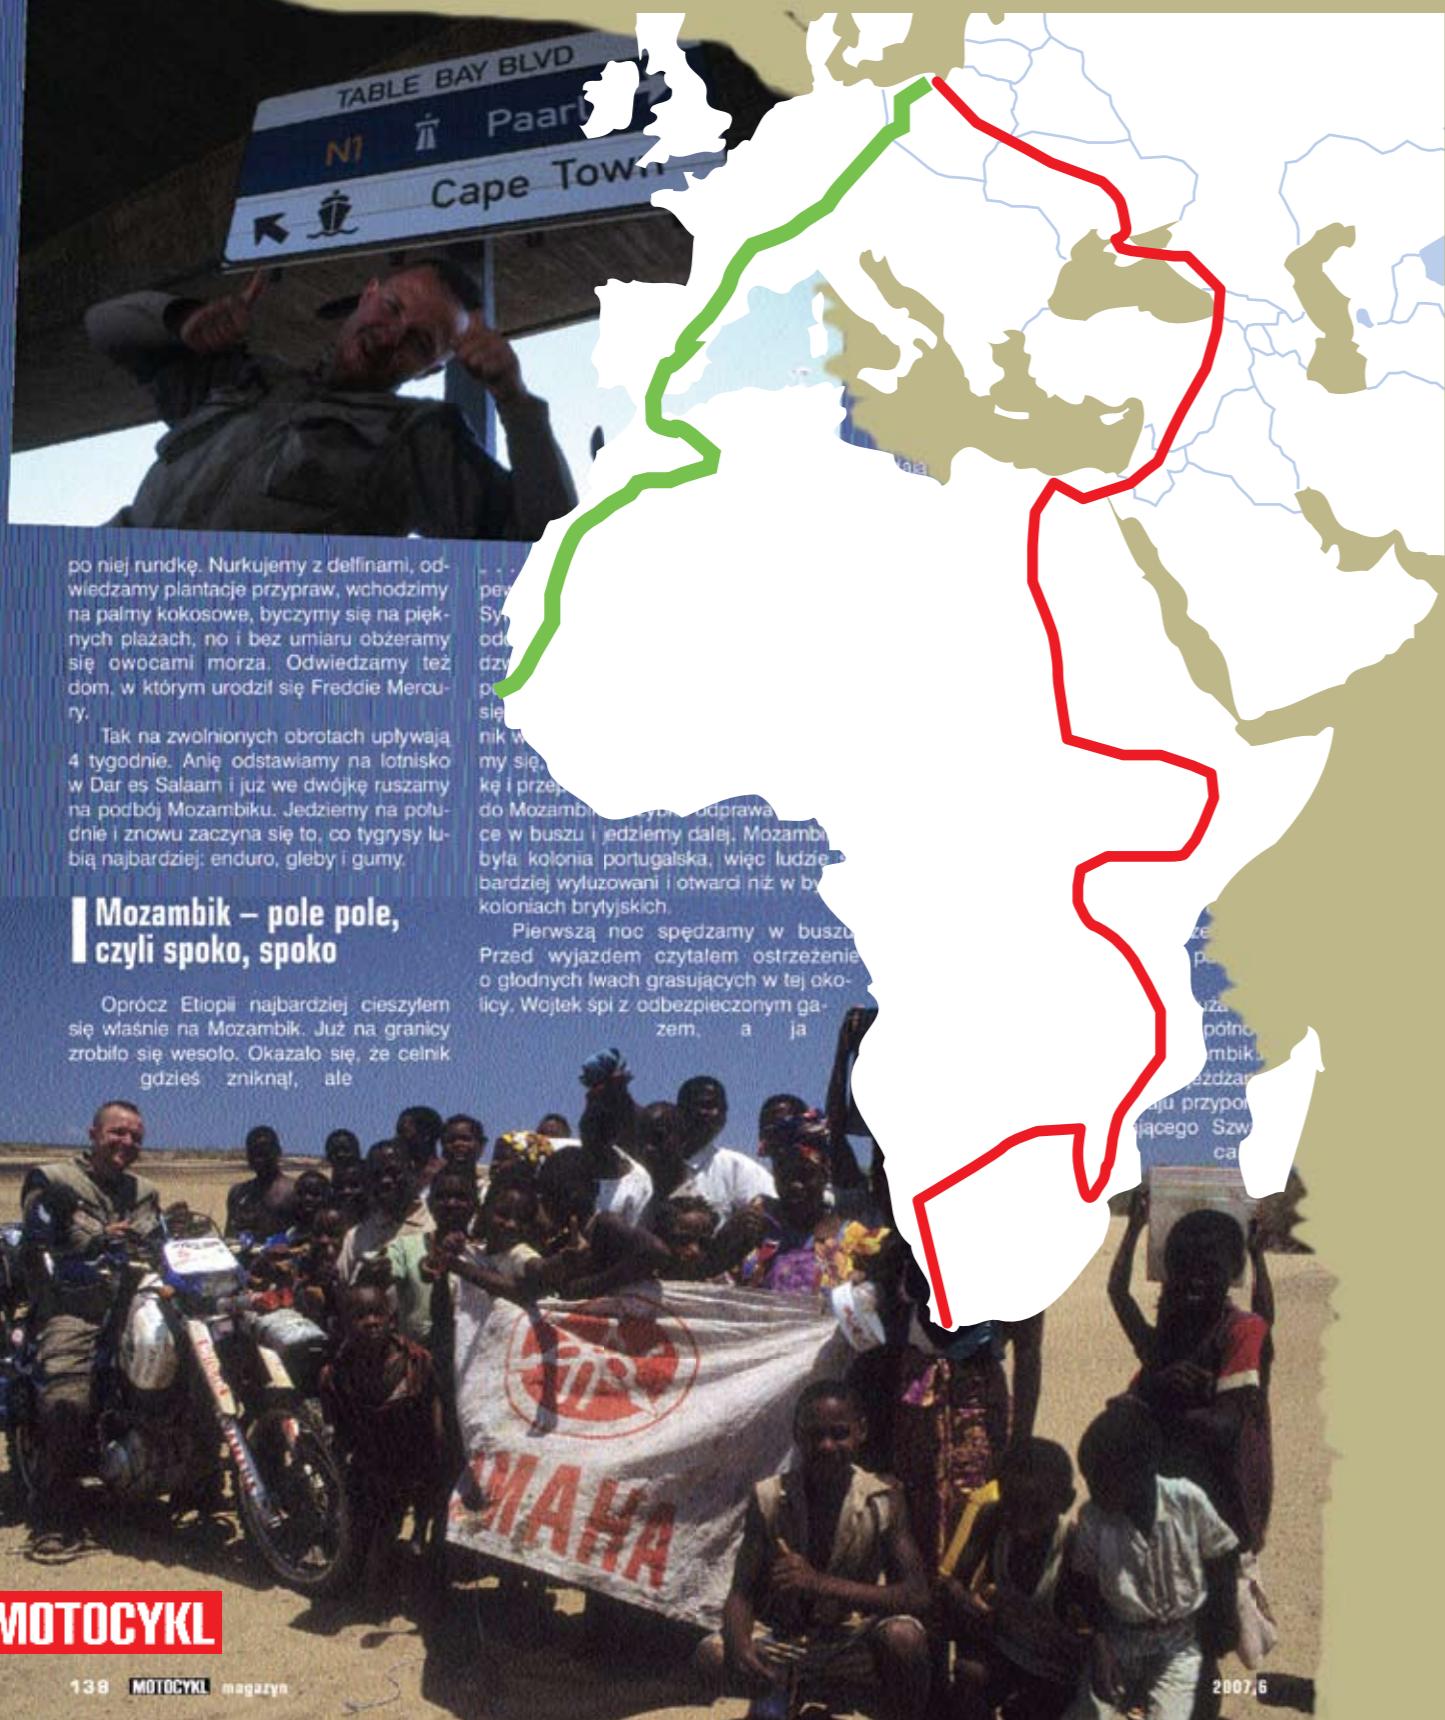

As on previous trips we will make an great movie and will bring back outstanding photos. All this with the bike and sponsors stickers everywhere.

## Zambia – skok w przepaść głową w dół

Nasz cel: miasto Livingstone – stolica sportów ekstremalnych. Chcemy skoczyć z bungee. Mimo że na samą myśl o tym robi mi się stabo. Żeby przypadkiem nie zmienić zdania, najpierw placimy za skok, dopiero potem idziemy na most. Widok jest niesamowity. 111 metrów pod nami wieje się w kanionie
